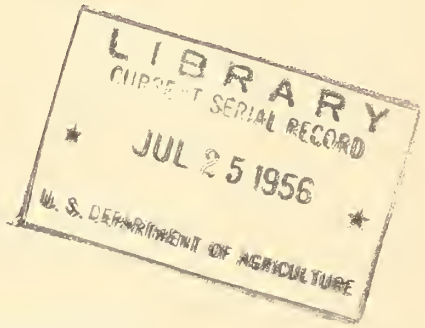
CARLOT UNLOADS OF CERTAIN FRUITS AND VEGETABLES IN 100 U. S. AND 5 CANADIAN CITIES, ALSO TRUCK UNLOADS IN 22 U. S. CITIES

CALENDAR YEAR 1955



UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL MARKETING SERVICE
Fruit and Vegetable Division
Market News Branch

Washington, D. C.

AMS-25 (1955)

April 1956

PREFACE

Commodities reported in this summary, with abbreviations used in the tables, are shown on next page. The actual State of origin was obtained, when possible, on reshipments and shipments out of storage. Most Illinois mixed vegetables unloaded at cities in the Middle West were reshipments from Chicago, having been reloaded from inbound carlots originating in various States. Mixed cars containing as much as 90 percent of one commodity were classified under the name of that commodity. When no single commodity comprised as much as 90 percent, cars were classified in the proper mixed category; for example, mixed citrus fruit, mixed vegetables. Some divergence from this 90 percent rule may be expected in view of large number of transportation employees involved in preparation of the reports.

The sum of unloads exceeds imports of certain imported fruits shown in shipment summaries. This is because all boat receipts at New York City are shown as unloads, notwithstanding the fact some carlots may be subsequently shipped to interior cities.

Truck unloads, expressed in carlot equivalents, of these 21 commodities are reported for 22 U. S. cities. Trucks ordinarily handling fresh fruits and vegetables are not required by law to maintain complete records of tonnage handled as is required of common carriers. Therefore, it is impossible to obtain as complete reports of truck unloads as is possible with respect to rail and boat movement. Estimated percentage of completeness of truck unloads is shown on each city report. These estimates take into consideration movement in wholesale commercial channels, including chain stores and farmers' markets. Truck unloads reported as "Unknown" under State of origin largely represent quantities repacked en route, actual State of production not being available.

Monthly totals of rail unloads for commodities, other than those regularly reported for "100 cities," are shown in the tables by months for cities where F. & V. Market News Offices are located. Likewise, other commodities received by truck are shown for the cities where truck receipts are reported.

Special tables outlining rail and boat distribution in 100 U. S. and 5 Canadian cities, as well as motortruck distribution in 22 cities, for each commodity classification reported in this summary are included. See index on next page.

The unloads reported for the 5 Canadian cities were furnished through the courtesy of the Canadian Department of Agriculture. Receipts by boat at some markets, which were converted by that Department to carlot equivalents, are included.

Cooperation on the part of railroad, express and steamship agents, and officials of State departments of agriculture and farmers' markets in furnishing information, as well as members of the produce industry in furnishing records of motortruck movement, is hereby gratefully acknowledged.
